

SP5500 series Optimus5™

Optimus S^{TM} is a compact portable data terminal designed for retail and light warehouse data collection applications, including inventory and stocking.

Metrologic's Optimus S and Optimus SBT mobile computers offer pocket-sized, data-collection solutions for inventory, order-picking or shipping/receiving applications.

While both of these stylish mobile computers are engineered for rapid batch data collection, only Optimus SBT features Bluetooth® connectivity for real-time data transfer and easy integration with any Class 1 Bluetooth peripheral.

Features

Like all Metrologic mobile computers, Optimus S and Optimus SBT feature navigation and software development tools that make customizing applications for even the toughest data-collection challenges a snap.

Both devices come with software for quick configuration to any mobile computing program or database. Their 2MB of memory accommodate large inventories and rechargeable batteries provide hours of scanning operation (Optimus S: 100 hours; Optimus SBT: 36 hours).
